

Av Specs in Ormeau Baths Event Space

The event space is equipped with modern Audio-Visual facilities that will accommodate most events and scenarios, consisting of the following:

Visuals

- Ceiling mounted Panasonic RZ970 Laser projector - Providing 10k Lumens at HD resolution
- Wired connectivity for both HDMI and VGA (Mac users please bring required adapters)
- Barco Clickshare wireless connectivity for all devices & laptops including iOS & Android, perfect for supporting presentation and group collaboration.

Audio

- PA System to provide reinforcement for speech as well as video playback and background music
- 1 x Sennheiser fixed lectern microphone
- 1 x Sennheiser Tie Clip microphone
- 1 x Sennheiser Handheld Radio microphone
- Audio feed available for recording / web streaming etc

Additional Support

AV support and additional equipment is available on top of the standard room setup. From extra microphones through to live streaming, recording and technical support. You can also avail of specialist AV consultancy beforehand to ensure you maximise the impact of your event. Please contact stuart@consultav.com / 07714262223 directly.
